

BA Course Outcome				
Programme Outcome : The B.A. graduates will be acquainted with the social, economical, historical, geographical, political, ideological and philosophical tradition and thinking. The program also empowers the graduates to appear for various competitive examinations or choose the post graduate programme of their choice. The B. A. program enables the students to acquire the knowledge with human values framing the base to deal with various problems in life with courage and humanity. The students will be ignited enough to think and act over for the solution of various issues prevailed in the human life to make this world better than ever. Programme provides the base to be the responsible citizen.				
Sl.No	Class/Paper/Sem	Code	Title	Course Outcome
1	B.A. Part-I Foundation Course	101	Hindi Language	Developed writing and oral language based on grammatical rule
2	B.A. Part-I Foundation Course	102	English Language	Aimed to improve the basic language skills: the grammar, and usage. In order to access the language to the general students.
3	B.A Part-I	199	Environmental Studies & Human Right	Environmental pollution and its protection and human rights information
4	B.A Part-I Paper I	131	Hindi Literature	To make bhakti kaleen teachings of poets and in a humanistic outlook
5	B.A Part-I Paper II	131	Hindi Literature	Develop an understanding of the fabric of Bhartiya social life through stories
6	B.A Part-I Paper II	111	Sociology/ Introduction to Sociology	Knowledge of the contribution of society in the development of the individual
7	B.A Part-I paper II	111	Sociology Contemporary Indian Society	Information about Indian society
8	B.A Part-I Paper I Political Theory	121	Political Science	State thinking and study of its practical activity.
9	B.A Part-I Paper II Indian Govt. and Politics	121	Political Science	Providing information on the practical knowledge of Indian administration and the constitution
10	B.A Part-I Paper I	141	Economics/ Micro Economics	Understand various economic aspects through micro-units
11	B.A Part-I Paper II	141	Economics./ Indian Economy	Provide information about the country's economic situation and problems.
12	B.A Part-I Paper I	153	physical geography	Students to study the earth
13	B.A Part-I Paper II	153	human Geography	Study of human and physical elements
14	B.A Part-I	153	Geography	Practical Knowledge
15	B.A Part-I Paper I	161	History	Knowledge of political history ancient culture and social system.
16	B.A Part-I Paper II	161	History	Knowledge of many empire who ruled in our country in ancient period
17	B.A Part II Paper I Foundation Course	201	Hindi Language	Aims to develop and improve the students' ability grammar, oral skills. To improve reading skills through extensive Reading.
18	B.A Part II Paper II Foundation Course	202	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language to the general students.
19	B.A Part II	231	Hindi Literature	To make aware of the meaning and problem of nature and human life through

	Paper I			the medium of modern Hindi poetry.
20	B.A Part II Paper II	231	Hindi Literature	To provide knowledge of prose literature and its scholarly influences
21	B.A Part II Paper I Sociology of Tribal Society	211	Sociology	Knowledge of the ancient castes who have cherished the ancient culture
22	B.A Part II Paper II Crime and Society.	211	Sociology	Knowledge of means to control anti-social behavior
23	B.A Part II Paper I	253	Economic geography	Getting information about economic activity
24	B.A Part II Paper II	253	Geography of India	Useful for competitive exams
25	B.A Part II	253	Geography	Practical Knowledge
26	B.A Part II Paper I	241	Economics/ Macro Economics	Understand the functioning of the entire economy
27	B.A Part II Paper II	241	Economics/ Money, Banking and Public Finance	Provide the knowledge of the importance of banking and its functioning and importance of revenue.
28	B.A Part II Paper I Political Thought	221	Political Science	Study of state and governance /ideas of western and Indian political thinkers.
29	B.A Part II Paper II Comparative Govt. and Politics.	221	Political Science	Comparative and critical study of the governments of the states of the developed countries
30	B.A Part-II Paper I	261	History	Introduction of medieval history of India (from 1206 to 1761) specially of Delhi Sultanate and Mughal period.
31	B.A Part-II Paper II	261	History	Knowledge of world history from (1890 to 1964 AD)
32	B.A Part III/ Paper- I Foundation Course	301	Hindi Language	Aims to develop and improve the students' ability grammar, oral skills. To improve reading skills through extensive Reading.
33	B.A Part III/ Paper-II Foundation Course	302	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language to the general students.
34	B.A Part III Paper I	331	Hindi Literature	Developing the ability to analyze statement styles and sentence structures.
35	B.A Part III Paper II	331	Hindi Literature	Origin and history of Hindi language and study of literature
36	B.A Part III Paper I Jan Jatiya Samaj Ka Samaj Shastra	311	Sociology	Provide information about various tribes / races of India
37	B.A Part III Paper I	353	remote sensing	New scientific topic of obtaining data
38	B.A Part III Paper II	353	Geography of Chhattisgarh	Useful for competitive exams

39	B.A Part III	353	Geography	Practical Knowledge
40	B.A Part III Paper II	311	Sociology	Provide various research tools and technical information
41	B.A. III/ Paper I International Politics	321	Political Science	Analysis of international and foreign policy: study of the determining elements of world politics.
42	B.A. III/ Paper I	361	History	Knowledge of Indian national movement and Indian culture.
43	B.A. III/ Paper II	361	History	Arrival of European companies in India.
44	B.A Part III/ Paper II Public Administration.	321	Political Science	Presentation of citizens' policies and policies to implement and conduct activities of the state.
45	B.A Part III/ Paper I	341	Economics / Paper I Development and Environmental Economics	Provide knowledge of the entire development process of the Developed and developing economy
46	B.A Part III Paper II	341	Economics / Statistical Method	Developed to make scientific and rational decisions

BSc Course Outcome

Programme Outcome : The Bachelor of Science programme provides students with the opportunity to integrate their science or technology studies and focus their knowledge, skills and intellect on appropriate methods of research, investigation and design, to solve problem science, mathematics, technology including the planning and or conduct of a significant project, problem or investigation.

47	B.Sc Part -I Paper I Foundation Course	101	Hindi Language	Aims to develop and improve the students' ability grammar, Oral skills. To improve reading skills through extensive Reading.
48	B.Sc Part -I Paper II Foundation Course	102	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language to the general students.
49	B.Sc Part- I	199	Environmental Studies & Human Right	This paper discusses about Environmental Pollution and Its Protection and Human Rights Information
50	B.Sc Part -I Paper I	180	Physics	This paper discusses about The Speed Related Functions of Vast in Mechanics
51	B.Sc Part- I Paper II	180	Physics	This paper discusses about The Speed and Direction of Magnetic Fields In Conductive Materials
52	B.Sc Part -I	180	Physics: Practical	Practical knowledge
53	B.Sc Part-I Paper I	120	Botany	This paper discusses about the detailed structure, reproduction, and economic importance of the Viruses, Bacteria, Fungi and Lichens.
54	B.Sc Part-I Paper II	120	Botany	This paper discusses about the morphology, Classification, Reproduction and Life Cycle of Bryophyte, Pteridophyte, Gymnosperm.
55	B.Sc Part-I	120	Botany :Practical	Practical knowledge
56	B.Sc Part-I Paper I	190	Zoology/ Cell Biology & Non- chordate	This paper discusses about the study structure and function of the cell and its associated organelles.
57	B.Sc Part-I Paper II	190	Zoology/ Chordate & Embryology	Giving Information about the embryology and On The development of the Vertebrate Animal's Development from Chordate
58	B.Sc Part-I	190	Zoology:	

			Practical	Practical Knowledge about embryology and cytology
59	B.Sc Part-I Paper I	125	Chemistry/ Inorganic Chemistry	This paper discusses about the structure and the theories related to Atom and Molecule.
60	B.Sc Part-I Paper II	125	Chemistry/ Organic Chemistry	This paper discusses about the investigation of the properties of unsaturated and aromatic compounds
61	B.Sc Part-I Paper III	125	Chemistry Physical Chemistry	This paper discusses about The Structure of Ionic Compounds and Their Use in Colloidal Industries
62	B.Sc Part-I	125	Chemistry : Practical	Practical knowledge
63	B.Sc Part-I Paper I	170	Mathematics Algebra and Trigonometry	This paper discusses about Uses Of Algebra And Trigonometry To Find Out The Area And Distance: Its Major Uses In Research
64	B.Sc Part-I Paper II	170	Calculus	This paper discusses about To Find Out the Method Of Different Types Of Problems And Its Major Uses In Research
65	B.Sc Part-I Paper III	170	Vector Analysis and Geometry	Study on methods of geometry
66	B.Sc Part-II Paper - I Foundation Course	201	Hindi Language	Aims to develop and improve students' grammar and spoken skills including Extensive reading to improve reading skills.
67	B.Sc Part -II Paper II Foundation Course	202	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language to the general students.
68	B.Sc Part-II Paper I	225	Chemistry/ Inorganic Chemistry	It gives detailed knowledge about the Uses of the Transition And Inter Transition Element
69	B.Sc Part-II Paper II	225	Chemistry/ Medicine and Synthesis Ch7emistry	This paper discusses about the Use of chemical compounds In Medicine and Synthetic Chemistry
70	B.Sc Part-II Paper III	225	Chemistry/ Physical Chemistry	This paper discusses about the application of the Alloys in the industries
71	B.Sc Part-II	225	Chemistry : Practical	Practical knowledge
72	B.Sc Part-II Paper I	280	Physics	Knowledge of heat transmission of substances
73	B.Sc Part-II Paper II	280	Physics	The study of the need for the medium for the direction of transmission of waves and the speed of waves.
74	B.Sc Part-II	280	Physics : Practical	Practical knowledge
75	B.Sc Part-II Paper I	220	Botany	This paper gives information about the Study Of Plant Classification And the important characteristics of the economically important plant families.
76	B.Sc Part-II Paper II	220	Botany	It gives information about the physiological and metabolic aspects of the plants that includes Water Absorption, Nutrition Uptake And Photosynthesis In Plants.
77	B.Sc Part-II	220	Botany : Practical	Practical Knowledge about the plant physiology
78	B.Sc Part-II Paper I	290	Zoology/ Anatomy & Physiology	This paper deals with the physiological and anatomical aspects of the human body
79	B.Sc Part-II Paper II	290	Zoology/Vertebra	This paper discusses about the hormone's

			ate, Endocrinology	receptors, functions and signaling in the human body
80	B.Sc Part-II	290	Zoology: Practical	Practical Knowledge about human physiology
81	B.Sc Part-II Paper I	270	Mathematics Advanced Calculus	This paper discusses about Study Of Higher Method Of Different Types Of Problem: Its Major Uses In Research
82	B.Sc Part-II Paper II	270	Mathematics Differential Equations.	This paper discusses about Methods Of Differentiation And Lap Laces
83	B.Sc Part-II Paper III	270	Mathematics Mechanics	Study of finding the equation of matter and space
84	B.Sc Part-III Paper I	301	Foundation Course Hindi	Aims to develop and improve the students' ability grammar, Oral skills. To improve reading skills through extensive reading.
85	B.Sc Part-III Paper II	302	Foundation Course English	Developing the ability to compose words and draft official letters
86	B.Sc Part-III Paper I	325	Chemistry / In Organic Chemistry	This paper discusses about Inorganic Polymer Industries.
87	B.Sc Part-III Paper II	325	Chemistry / Organic Chemistry	This paper discusses about Uses of organic chemistry In Dyes Organic Polymer Industries
88	B.Sc Part-III Paper III	325	Chemistry / Physical	This paper discusses about Determination Of Structure Of Molecule By Spectroscopic Method
89	B.Sc Part-III	325	Chemistry: Practical	Practical knowledge
90	B.Sc Part-III Paper I	400	Physics	This paper discusses about Frame Speed in Relativity.
91	B.Sc Part-III Paper II	400	Physics	This paper discusses about Crystal Structure in physics
92	B.Sc Part-III	400	Physics : Practical	Practical knowledge
93	B.Sc Part-III Paper I	320	Botany	This paper discusses about the strategies and the applications of the biotechnology to develop the genetically engineered plants.
94	B.Sc Part-III Paper II	320	Botany	This paper discusses about the economically important plants uses and its morphological characters
95	B.Sc Part-III	320	Botany Practical	Practical Knowledge about the biotechnology and economic botany
96	B.Sc Part-III Paper I	410	Zoology/ Ecology, Environmental Biology	This paper discusses about The Effect of Toxicity On Animals And Their Environment.
97	B.Sc Part-III Paper II	410	Zoology/Genetic s, cell Physiology etc.,	This paper discusses about Heredity, variation and Cell Mutation
98	B.Sc Part-III	410	Zoology : Practical	Practical Knowledge genetics and ecology
99	B.Sc Part-III Paper I	375	Mathematics Analysis	This paper discusses about The Equation of Different Types of Series and Study of Space. Its Major Uses In Research
100	B.Sc Part-III Paper II	375	Mathematics Abstract Algebra	This paper discusses about the application of Groups Rings Fields and Integral Domain
101	B.Sc Part-III Paper III	375	Mathematics Discrete	Study of graph theory bullion algebra and switching circuits uses in research

BCom Course Outcome

Programme Outcome : After completing graduation, students can get skills regarding various aspects like Marketing Manager, Selling Manager, over all administration abilities of the Company. Capability of the students to make decisions at personal & professional level will increase after completion of this course. Students can independently start up their own Business. Students can get thorough knowledge of finance and commerce. The knowledge of different specializations in Accounting, costing, banking and finance with the practical exposure helps the students to stand in organization.

102	B.Com Part -I Paper – I Foundation Course	101	Hindi Language	Aims to develop and improve the students' ability grammar, oral skills. To improve reading skills through extensive Reading.
103	B.Com Part -I Paper –II Foundation Course	102	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language to the general students.
104	B.Com Part -I	199	Environmental Studies & Human Right	Environmental pollution and its protection and human rights information
105	B.Com Part -I GR I Paper I	110	Financial Accounting	To Develop The Skill Of Book Keeping And Accounting
106	B.Com Part -I Gr I Paper II	110	Business Communication	Enhancement of skill in letter business letter writing and knowledge in business life
107	B.Com Part -I Gr II Paper I	120	Business Mathematics	Development of skill in business transactions useful for various competitive examinations.
108	B.Com Part -I Gr II Paper II	120	Business Regulatory Framework	To impart knowledge in various legal aspects and regulations of the business
109	B.Com Part -I Gr.III Paper I	130	Business Environment	To impart training in business related environment along with global knowledge.
110	B.Com Part -I Gr III, Paper II	130	Business Economics	Development of analysis and marketing in different market conditions and use of micro and macro economics in business.
111	B.Com Part -II Paper – I Foundation Course	201	Hindi Language	Aims to develop and improve the students' ability grammar, oral skills. To improve reading skills through extensive Reading.
112	B.Com Part -II Paper – II Foundation Course	202	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language to the general students.
113	B.Com Part -II Gr I, Paper I	210	Corporate Accounting	To increase the knowledge of practices of joint stock company
114	B.Com Part -II Gr I, Paper II	210	Company Law	Development of knowledge of various legal initiatives of registration, operation of joint stock company
115	B.Com Part -II Gr II, Paper I	220	Cost Account	Determination of the cost of production, service, and maintain accounts in production based institutions.
116	B.Com Part -II Gr II, Paper II	220	Principle of Management	Development of capacity to perform effective management in the organization
117	B.Com Part -II Gr III, Paper I	230	Business Statistics	Development of decision making in businesses by using various techniques of statistics
118	B.Com Part -II Gr III, Paper II	230	Fundamentals of Entrepreneurship	To provide knowledge of how to set own enterprise
119	B.Com Part -II Paper – I Foundation Course	301	Hindi Language	Aims to develop and improve the students' ability grammar, oral skills. To improve reading skills through extensive Reading.
120	B.Com Part -II Paper – II Foundation Course	302	English Language	Aimed to improve the basic language skills: the grammar, And usage. In order to access the language

				to the general students.
121	B.Com Part -III Gr I, Paper I	310	Income Tax	Development of ability to calculate total income and tax liability of individual, firm and HUF.
122	B.Com Part -III Gr I, Paper II	340	Auditing	Capacity development of preparing the financial statements and checking of accounts of institutions
123	B.Com Part -III Gr II, Paper I	320	Indirect Tax with GST	Provide knowledge of Indian customs and state excise duties & Development of knowledge and the process of registration and determination of taxable wealth under GST
124	B.Com Part -III Gr II, Paper II	330	Management Accounting	Development of ability to take decisions under different circumstances in the business operations
125	B.Com Part -III Gr B, Paper I	360	Principles of Marketing	Development of ability to execute marketing effectively in the market
126	B.Com Part -III Gr B, Paper II	360	International Marketing	Provide knowledge of marketing functions on a global scale.

M.A. (Political Science)

Programme Outcome : On successful completion of the programme students should be able to demonstrate knowledge and understanding of the key theories and concepts in Political Science . It also aims at familiarize insights into the theoretical advances in the discipline. To enable the students the ability to evaluate theories in the light of empirical evidence or normative propositions. Apply appropriate theories to analyses social and political happenings. Demonstrate an understanding of the philosophical dimensions of political systems, processes and movements at the local, national and trans-national levels.

126	Sem I Paper I	101	Indian Political Thought	Analysis of social, political, economic ideas of Indian political visionaries.
127	Sem I Paper II	102	Indian Govt. and Politics.	Study of Indian constitution, union legislature and judiciary.
128	Sem I Paper III	103	Comparative Politics	Study of complexity of various national and international political practice.
129	Sem I Paper IV	104	International Organization	Nationalism regionalism and protection sovereignty. The importance of international organization
130	Sem II Paper I	201	Western Political Thought.	Reflections of the theories of western thinkers on the Indian context.
131	Sem II Paper II	202	State Politics in India	To make aware of the regional political system, administration and activities
132	Sem II Paper III	203	Comparative Politics of Developed Countries	To make aware of the functioning of the government and political institute of the developed countries.
133	Sem II Paper IV	204	International Law	To make aware about international laws
134	Sem III Paper I	301	Principles of International Politics.	To have a common, public interest on serious subjects in relation to international political principles
135	Sem III Paper II	302	Public Administration P- 1	Study of activities of various departments under administration
136	Sem III Paper III	303	Research Methodology P 1	Conceptualizing social research and arriving at a realistic conclusion from modern studies
137	Sem III Paper IV	304	foreign policy of major powers and Indian Foreign Policy.	Emphasize the determination of various political thinkers and their ideologies.
138	Sem IV Paper I	401	Principles of International Politics.	To have a common, public interest on serious subjects in relation to international political principles
139	Sem IV Paper II	402	Public Administration P2	Extensive study of the problem and administrative behavior of employees in Indian

				administration
140	Sem IV Paper III	403	Research Methodology P 2	Problems and themes of research and the major systems of social research
141	Sem IV Paper IV	404	foreign policy of major powers and Indian Foreign Policy.	Emphasize the determination of various political thinkers and their ideologies.
142	Sem IV	405	Project Work Viva Voce	

M.Com. Paper Outcomes

Programme Outcome : To provide a systematic and rigorous learning and exposure to Banking and Finance related disciplines. To train the student to develop conceptual, applied and research skills as well as competencies required for effective problem solving and right decision making in routine and special activities relevant to financial management and Banking Transactions of a business. To acquaint a student with conventional as well as contemporary areas in the discipline of Commerce.

143	Sem I Paper I	101	Managerial Economics	Development of students' ability by using both theory and quantitative approaches
144	Sem I Paper II	102	Advance Account	Knowledge of building high-level business practices of companies along with making of accounts
145	Sem I Paper III	103	Income tax Law and Account	To provide knowledge of calculation of total income and tax liability under the income tax act.
146	Sem I Paper IV	104	Statistical Analysis	Higher knowledge of high of statistics techniques
147	Sem I Paper V	105	Corporate Legal Frame work	Knowledge of the provisions of the companies act 2013 and the negotiable instrument act 1881
148	Sem II / Paper VI	201	Business Economics	How the principles of economics and economic analysis are used in business.
149	Sem II Paper VII	202	Specialized Accounting	To aquire knowledge of making accounts Of insurance company, banking company, public utility companies
150	Sem II Paper VIII	203	Tax Planning and Management.	Knowledge of filing income tax returns and tax assessment proceedings
151	Sem II Paper IX	204	Advance Statistics	Knowledge of doing statistics in social research
152	Sem II Paper X	205	Business Law	Knowledge of specific types of business law SEBI act 1992 MRTP act 1962, FEMA 1989
153	Sem III Paper I	301	Concept of Management	Developing professionally the ability to manage business.
154	Sem III Paper II	302	Organizational Behavior	Formal mobilization & foster behavior of informal groups and its implications: Observe and control the behavior of informal groups and its effect.
155	Sem III Paper III	303	Uchatar lagat Lekhankan: Advance Cost Account	Knowledge of determination of cost and control of institutions engaged in production and operation.
156	Sem III Paper IV	304	Management Account	Knowledge of the process of providing financial information and resources to managers in decision making
157	Sem III Paper V	305	Accounting for Managerial decision	Knowledge of analyzing financial statements and preparing reports
158	Sem IV Paper (A 1)	401	Principles of Marketing	Provide knowledge of various processes ranging from production to consumer
159	Sem IV Paper (A 2)	402	Advertising And Sales Management	Provide knowledge of the effect and effectively using the advertising on the

				sale
160	Sem IV Paper (A 3)	403	Marketing Research	Development of the ability to identify and evaluate the changing elements of the marketing mix that affect customer behavior.
161	Sem IV Paper (A 4)	404	International Marketing	Knowledge of the methodology involved in marketing globally
162	Sem IV	417	Project Work/Viva	

M.Sc. Course Outcome

Programme Outcome :At the end of the programme, students learn about the identification and characterization of the plants, their economic importance. Additionally, it also provides understanding about the cytology, genetics, biotechnology, microbiology, physiology, and pathology.

163	M.Sc. I Semester: Paper I	101	Cytology	This paper gives understanding about the detailed account of the structure and functions of the cell and the different cell organelles that it contains, which help to understand the basis of life.
164	M.Sc. I Semester: Paper II	102	Genetics	This paper discusses about the study of the structural organization of the genetic material, the structure and the terminology associated with the gene, that comprehends the knowledge about the heredity and variation in the nature.
165	M.Sc. I Semester: Paper III	103	Microbiology, Phycology, and Mycology	This Paper Gives Understanding About The Structure And Biological/Economic Importance Of Bacteria, Viruses, Phytoplasmata, Algae And Fungi, Which Can Be Used To Understand The Diversity In The Field Of Microbiology.
166	M.Sc. I Semester: Paper IV	104	Bryophyta, Pteridophyta, and Gymnosperm	This paper includes the morphology, structure, reproduction and economic importance of the bryophytes, pteridophytes, and gymnosperms, which gives knowledge about the diversity in the plant kingdom.
167	M.Sc.	105	Lab course I	Practical knowledge about cytology, microbiology, phycology, and mycology
168	M.Sc.	106	Lab course II	Practical knowledge about genetics and plant diversity (bryophytes, pteridophytes, and gymnosperms)
169	M.Sc. II Semester: Paper I	201	Taxonomy and diversity of plants	This paper discusses about the taxonomical diversity of plants on the earth. It also gives understanding about the taxonomical keys to identify, nomenclature and characterize the plants.
170	M.Sc. II Semester: Paper II	202	Molecular Biology	This paper gives understanding about the molecular biology dealing with the structure of nucleic acids, gene structure, cytogenetics, and mutations
171	M.Sc. II Semester: Paper III	203	Plant physiology	This paper deals with the physiological aspects of plants related to transportation, signaling, stress and enzymology.

172	M.Sc. II Semester: Paper IV	204	Plant Metabolism	This paper includes the study of different metabolic pathways involved in plant metabolism, which includes photosynthesis, respiration, plant growth regulators as well as the nitrogen and sulphur metabolism.
173	M.Sc.	205	Lab course I	Practical knowledge about taxonomy and diversity of plants and plant physiology
174	M.Sc.	206	Lab course II	Practical knowledge about molecular biology and plant metabolism
175	M.Sc. III Semester: Paper I	301	Plant Development and Plant Resources	This paper deals with study of the development and structure of different organs of the higher plants including root, stem, leaf, flower, etc. And the associated terminology, which can be used to understand the basic structure of the plant organs.
176	M.Sc. III Semester: Paper II	302	Ecosystem and Vegetation Ecology	Study about the relationship between the environment and the living organisms. It gives understanding about how the ecosystem works in the nature and the components that affect it. It can be helpful to understand the global climate changes and the ways to reduce it for sustainable living.
177	M.Sc. III Semester: Paper III	303	Biotechnological and Genetic Engineering of Plants and Microbes	This Paper Gives Understanding About The Biotechnological Tools And The Strategies To Utilize Them In The Manipulation Of The Genetic Material For The Production Of Transgenic Plants.
178	M.Sc. III Semester: Paper IV	304	Molecular Plant Pathology	This paper provides knowledge about the various plant diseases, their causal organisms, life cycle and/or the event involved that can aware about to take precautionary actions to reduce them.
179	M.Sc.	305	Lab course I	Practical knowledge about plant development and ecology
180	M.Sc.	306	Lab course II	Practical knowledge about biotechnological genetic engineering of plants and molecular plant pathology
181	M.Sc. IV Semester: Paper I	401	Plant Reproduction and Plant Resources Utilization	This paper discusses about the life cycle of the higher plants and the utilization of the plant resources important for the human welfare.
182	M.Sc. IV Semester: Paper II	402	Vegetation Ecology and Biodiversity Conservation	Study about the ecological relationship between the environment and the living organisms. It also deals with the ways to conserve the biodiversity on the earth.
183	M.Sc. IV Semester: Paper III	403	Plant Cell, Tissue and Organ Culture	This paper gives understanding the methods and strategies to culture the cell, tissues or organs on the artificial media to regenerate the plants under the laboratory conditions.
184	M.Sc. IV Semester: Paper IV	404	Molecular Plant Pathology II	This paper provides knowledge about the various plant diseases, their causal organisms, life cycle and/or the event involved that can aware about to take precautionary actions to reduce them.

185	M.Sc.	405	Lab course I	Practical knowledge about plant reproduction, plant resources utilization, vegetation ecology and biodiversity conservation
186	M.Sc.	406	Lab course II	Practical knowledge about plant cell, tissue and organ culture, and molecular plant pathology

Programme outcomes(PO),Course Outcomes(CO) and Programme Specific Outcomes of Programmews(SPO) offered by Govt. Shaheed Gendsingh College Charama,Distt-Uttar Bastar Kanker(C.G.)

Hindi Literature	<ol style="list-style-type: none"> 1. Provide advanced knowledge of different theories of Hindi Language and Literature and acquired the competency to pursue higher degrees and research. 2. The students gained after completion of the programme, the relation between the socio cultural condition of a society and the short stories through the lectures organized. 3. The students also learnt the use of Hindi in media writing and study of translation process in Journalism. 4. The students learnt the poetry and Prose literature written in Chhattisgarhi language. 5. They also learnt the social consciousness the region through the study of this literature.
Political Science	A part from the state and government system, how to make information about government schemes available to the public are taught.
Botany	The students will be able to identify various plants, its design and its Experiments. They will also learn the basic concept of bacteria, virus. They will also learn the practical technique in laboratory.
Zoology	The students will learn the human body through the study of anatomy and physiology. Reproduction and related hormone study along with toxicity on animals and their environment will also learnt .The heredity and cell mutation are specially learnt.
Chemistry	Gain the knowledge of Chemistry through theory and practical The students also understood good laboratory practices and how safely the equipments are handled. They also learnt how to identify chemical formulae
Physics	The students gained knowledge of Physics through theory and practical. The students also understood good laboratory practices and how safely the equipments are handled
Mathematics	How to formulate and develop mathematical arguments in a logical Manner is learnt by the students. They also acquired good knowledge in advanced areas of mathematics.
Commerce	The fundamentals of Commerce and finance are taught to students. The students learnt financial accounting career skills applying both qualitative and quantitative knowledge and with this they can independently start their own business.
